# LDA/BBT

## Staking Pool

Let's take a dive into LDA/BBT Staking ...  
This is a partnered Staking Pool integrated into The  
LionX Native DeFi Protocol "Oasis".  
The LDA/BBT Staking pool creates opportunities by  
merging two outstanding communities through the  
power of DeFi.

Stake The Lion Digital Alliance Token to mint Baby Turu  
which is a deflationary Token in the TuruGlobal  
Ecosystem.

This partnership promotes the unity within Tron  
Network.

**LION DIGITAL ALLIANCE  
TOKEN**

# INTERACT

You must acquire TRX and energy before you are able to interact with Smart Contracts/DApps on Tron.

Make sure you're also using an extension DApp browser compatible with Tron Network

Stake LDA to earn BBT.

Withdraw BBT rewards and unstake your LDA anytime free of fees other than energy in bandwidth consumption.

Reward distribution is based on a set fixed rate.

For Example - Let's just say (1) Staked LDA earns 0.01 BBT over a duration of 24 hours .

This would be the same guidelines for each LDA entered into the contract.

# BREAKDOWN

- Process to Stake -

Enter desired amount of LDA you wish to stake.

Click Approve (Sign Transaction this will only happen on your first time using pool)

Then, Click Stake (Sign Transaction)

- Process to Unstake

Enter desired amount of LDA you wish to Unstake .

Click Unstake (Sign Transactions)

\*Process is split into 2 transactions, for security purposes\*

Under these icons you will see BabyTuru reward balance. You'll be able to claim rewards anytime as long as there is a balance present.

Just below the rewards, you'll see your stats. This consists of The total amount of LDA you currently have staked in the pool and the total amount of BBT you have claimed from Rewards.
