LDA STAKING

OASISI DEFI PROTOCOL

Oasis offers a staking pool called LDA Staking where users can stake LDA tokens to earn interest in LDA and be rewarded in TRX for holding their stake longer than other users in the smart contract.

GET STARTED

By freezing some TRX, users can gain energy or rent energy from reliable delegators to consume when triggering smart contract functions instead of burning their hard-earned TRX. Join the Lion X community and stake LDA tokens to earn rewards and incentives in a hassle-free way!

EXPLORE

Staking LDA in Oasis is a great way to earn rewards in LDA and get incentivized in TRX for holding your stake longer than others. You have the opportunity to earn even more rewards by rolling over your TRX rewards to the Jungle contract.

ENERGY CONSUMPTION

Stake = 71K - 190K

Unstake = 55K - 85K

Roll LDA = 55K - 95K

Roll to Jungle = 120K -

195K Withdraw = 50K- 95K

RATE OF REWARDS

- There is no fee to stake LDA.
- When you unstake LDA, there is a 10% fee. This fee is collected in TRX and is distributed to LDA stakers as instant TRX rewards.
- If you choose to roll over your TRX rewards to the Jungle contract, there is a 50% Jungle fee (refer to Jungle).
